

# HOW TO FIGHT CORONAVIRUS

unicef   
for every child

Coronavirus is spreading quickly in some parts of the world, causing illnesses that can be mild or serious, but there are some simple steps you can take to be safer!

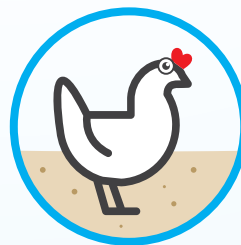

**If you cough or sneeze,** cover your **mouth** and **nose** with the **inside of your elbow**

**Wash your hands often** for **20 seconds** using **soap** and **water**

**Keep a distance** from **anyone coughing** or **sneezing**

**If you go to the market,** don't touch **animals** or the **area they are in**

**Alert and then see a doctor** if you have a **fever, cough,** or **difficulty breathing**
